Technical data Feintool MFA 1600 equipped with feeder line

Total force incl. auxiliary function: kN 1600

Hydraulic counterweight (upper table): kN 20....950

Hydraulic counterweight (lower table): kN 20....850

Ejector force (pump pressure) : kN 210

Power of drive motor : KW 22

Power of hydraulic unit: KW 22

Required compressed air pressure: bar 4...6

Number of strokes of the ram: 1/min 25....100

Maximum material thickness: position 15 mm 6 (8) | position 5 mm 8 (10)

Scrap chopper : kN 150

Stroke of the ram: position 15 mm 60 | position 5 mm 62

Air consumption: m³/h 80

Mass: Kg. 11000
